

Washington, DC-Thursday, Congressman Harry Teague issued the following statement congratulating the incoming New Mexico State University President, Barbara Couture.

“I would like to extend a warm southern New Mexico welcome to Barbara Couture as the incoming President of New Mexico State University. Over the past ten months I have had the opportunity to work very closely with the university on many great projects, including the Re-Energizing America Conference. What I have seen confirmed what I knew all along: NMSU is a truly remarkable institution, poised for even greater accomplishments in the future. I look forward to continuing to work alongside President Couture to help NMSU meet this potential and better serve the people of southern New Mexico.”
